EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife.

Please see our website for the latest information: <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>

Regular updates will be posted as they are available.

Subject: MEDIA REQUEST--HuffPost Live Segment

Hi Shaun,
I hope you're doing well! My name is Gabe, I work at HuffPost Live of The Huffington Post. We're producing our live segment tomorrow highlighting the Top Stories around the country and we would like to cover the Animas River mine spill. Would you be interested in joining the discussion as a webcam guest?

We can have you join using Google Hangouts (preferred) or Skype. I can follow up with instructions if needed. The segment is airing **TOMORROW, August 11th starting at 10:00am EST**. Please let me know if you have any questions.

Thanks,

--
